SUMMARY

Passionate Frontend Developer with experience in JavaScript, React.js, Context API, Redux, JSX, and Tailwind CSS. Committed to solving real-world problems through web development and API integration. Currently enhancing skills through a Full Stack Web Development course by CodeWithHarry on YouTube and a Communication Skills course by TJ Walker on Udemy. Open to collaborative environments and eager to contribute within team settings. Always open to researching and learning new technologies to stay ahead in the field.

SKILLS

Intermediate: JavaScript, React.js, Context API, Tailwind CSS, HTML, Redux, Communication

Beginner: EJS, Vite, Node.js, Express.js, REST API Integration, MongoDB, GitHub

EDUCATION

Bachelor of Computer Applications (BCA) (3rd Year)

2023 - 2026

G H Rasoni University, Amravati, 8 CGPA

WORK EXPERIENCE

True Path Foundation

Volunteer Frontend Developer

Remote | June 2025 – Present

Responsibilities:

- Collaborated with a Grassroots non-profit to design and propose a complete UI/UX overhaul for their upcoming initiative website, based on WordPress.
- Independently developed a functional **Demo website** to present layout, theme, and design direction, helping the Team visualize the platform's potential.
- Took initiative to guide the organization through **Technical decision-making**, including Website flow, User management, and Content structure, despite their limited technical background.
- Proposed and led a one-week research sprint with a colleague to assess tools, features, and strategies needed to build a manageable, scalable, and user-friendly web solution.
- Demonstrated strong Communication skills by presenting work during team meetings, gathering feedback, and aligning design vision with Organizational goals.
- Offered my technical skills for free to support a small team working to make a real difference in the community.

PROJECTS

iTask Web Application Using React

[@ iTasks](#)

May 2025 - Jun 2025

Technologies: React.js, Tailwind CSS
