CAREER OBJECTIVE

Passionate BCA student with intermediate experience in Full Stack Web Development. Experienced in JavaScript, React.js, Node.js, Express.js, Tailwind CSS, and REST APIs, with a beginner's understanding of MongoDB and EJS. Focused on solving real-world problems through web development and API integration. Currently enhancing skills in modern technologies with the goal of becoming a Software Engineer.

EDUCATION

G H Raisoni University, Amravati
Bachelor of Computer Applications (BCA),
2023 – 2026 (Expected Graduation)

SKILLS

- JavaScript
- React.js
- Vite
- Tailwind CSS
- HTML
- EJS
- Node.js
- Express.js
- REST API Integration
- MongoDB
- GitHub
- C programming

LANGUAGES

- Hindi (Native)
- English (Intermediate)

COURSES

- Following Sigma Web Development (YouTube – CodeWithHarry), a free full stack course covering HTML, CSS, JS, MERN stack and more.

PROJECTS

Email Viewing Web App

- Built an email viewer integrating Gmail API to fetch Data.
- Implemented RESTful architecture with Express.js and EJS for server-side rendering and dynamic email previews.
- Designed UI using Tailwind CSS with features like number of emails, sender detail, User Email and smooth scrolling.
- Enhanced performance with Promise.all() for efficient batch fetching and seamless client-server communication.

iTask Web Application Using React

- Built a task-tracking web application using React.js, featuring functionality to add, edit, mark as completed, and delete tasks. Implemented React Router for smooth navigation between pages. Styled the UI using Tailwind CSS, focusing on clean design and usability across standard screen sizes.

Spotify Clone

- Developed a Spotify-inspired UI with custom features, responsive layout, and deployed online.
- Implemented features like song playback, navigation, seek bar, volume control, and interactive elements.
- Cloned using JavaScript, HTML, and CSS.

X.com Clone

- Developed X.com clone using Tailwind CSS, focusing on layout, UI consistency, and clean code.
